MAZZINI

LIVING DINING SLEEPING

Philosophy

The most important feature of the classical understanding is that it is the carrier of modern times from the collection of history and the oldest style designs of the past.

With this in mind, Mazzini's house; The old, which has as much time as today's old, is true, the first to be seen at sight with it, the pleasure.

Decorative in furniture, variety of motifs in upholstery and forms with thin lines are the features that benefit Mazzini's designs from use and designs from space.

Mazzini adds interpretations of this style with the usual classical perception in his designs about "previously conventional knowledge and experience, and with an understanding of beauty that challenges aesthetic pleasure.

MAZZINI 11 years of experience in 2015; combines it with stylish, stylish

and aesthetic designs. Registered brand serving in 25 locations in the country and 36 locations abroad; carefully warns the classical furniture concept to new generations.

Mazzini provides services on an area of 14 thousand square meters by integrating systems. serves the furniture market in the casting industry with a different business brand as design; In 2015, it started to manufacture furniture as Mazzini.

With the speed of 11 training classes, it provides project support as well as presentation presentation.

If the brand adopts my understanding of "new old classic" with classic designs with modern lines, it can be with small people like young people. Mazzini, with its portfolio grown with fairs and references, promises you great pleasure with its modern lines, new generation classical understanding.
